FOR IMMEDIATE RELEASE

August 31, 2021

Contact: Laura Fauss, Public Information Officer

E-mail: lfauss@columbiana-health.org

Over the last several weeks there has been a significant change with the COVID-19 positivity rate in Columbiana County. Positivity rate is calculated by dividing the total number of PCR positive tests recorded for a period of time by the total number of tests performed in that same time period. The Ohio Department of Health provides this county level data over a 14-day window.

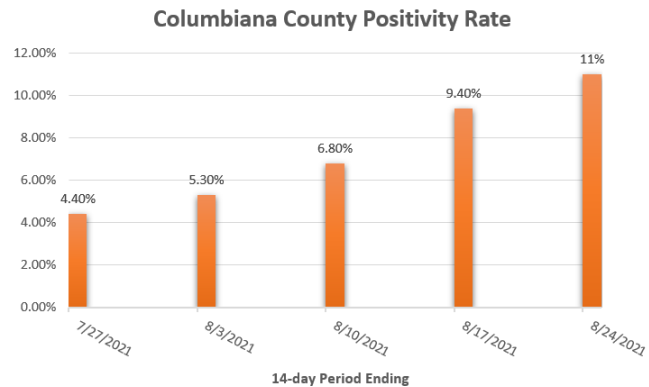

14-day period ending in 8/24/21- 11%

14-day period ending in 8/17/21- 9.4%

14-day period ending in 8/10/21- 6.8%

14-day period ending in 8/3/21- 5.3%

14-day period ending in 7/27/21- 4.4%

With this in mind it is important for residents to be aware of local COVID-19 testing locations. Below you will find a list of locations known to our department that provide COVID-19 testing, this is not an all-inclusive list, and we encourage residents to contact their local pharmacy or doctor's office to enquire about testing as well.

Please remember if you are feeling under the weather, stay home until your symptoms subside, regardless of your COVID-19 status. Preventing the spread of any disease from the common cold to COVID-19 is vital for the health of the community.
